

Dear Sir/Madam:

Enclosed please find a South Carolina Department of Health and Environmental Control (Department) application for a State Construction in Navigable Waters Permit for a proposed construction activity within navigable waters of South Carolina.

This application consists of two sections: (1) a written section which contains a description of the project, its intended use, and other specifications, and (2) actual drawings and maps containing specific data relative to your project, its location, and the affected watercourse with instructions for preparing the referenced drawings. Please follow the instructions carefully and provide all of the requested information in your submittal to avoid delays in processing your application.

The Department has also authorized several general permits for specific areas and types of activities across the State. If you are applying for one of the general permits, this authorization allows the Department to approve your application with minimum delay. When preparing the application, please familiarize yourself with all aspects of the general permit and especially that section that includes the special conditions. In order to qualify for approval under the general permit, your project must conform to all of the conditions listed and must be included in the submitted application. If all required conditions of the general permit are not met, your application will need to be processed individually and will necessitate a public review process and greater processing time. If you have questions regarding this application, please contact Gina Kirkland at (803) 898-4250.

Sincerely,

Gina Kirkland, Manager
